

# DISTRIBUTION

## Connecting the Right Products with the Right People, At the Right Time

Organizing and managing the flow of goods throughout your business is the key to managing a successful distribution operation. BKD & Accellos deliver the supply chain to your desktop by providing solutions that give you real-time, global visibility and automation capabilities.

Whether you run one consolidated warehouse or a network of distribution centers throughout the world, we have solutions that can scale with your business needs. Whether your issues are tracking inbound freight from Asia or consolidating orders across the U.S., our solutions connect the right products with the right people, at the right time.

### Who We Are

With over 100 combined years of experience in the distribution industry, BKD & Accellos are Microsoft Gold Certified Partners, both experienced with helping distribution customers become more profitable by delivering leading-edge solutions that meet the specific needs of their organization.

While there are several organizations in the marketplace offering single solutions, BKD & Accellos recognize the supply chain market's need for a universal solution to address your unique needs. Therefore, they have partnered to provide solutions to form a business-minded, whole-approach solution for the distribution market.

BKD & Accellos are both Microsoft Gold Certified Partners. This level of recognition is earned only by organizations that represent the highest level of competence and expertise with Microsoft technologies and have the closest working relationship with Microsoft.

With BKD's solid company history and deep industry knowledge, partnered with Accellos' extensive software expertise, an excellent match has been created to bring an all-in-one solution to the marketplace.

### What Sets Us Apart

Many supply chain organizations have hesitated to make changes necessary to remain competitive in today's automated marketplace due to cost and time constraints. BKD & Accellos recognizes these constraints and offers the flexibility to implement new solutions incrementally, over time or all at once, to deliver the best solution for our customer's businesses. When you call on BKD & Accellos, you benefit from:

- In-depth supply chain and distribution industry knowledge.  
With extensive experience serving the supply chain and distribution industry, we understand and appreciate the challenges you face every day and are dedicated to helping you achieve business success. Our experience includes many successful implementations across countless environments.
- Proven Expertise.  
As a Microsoft Inner Circle Member and Gold Certified Partner, we have demonstrated proficiency in developing, customizing and implementing high-quality Microsoft distribution applications.
- Highly trained, experienced staff.  
Our professional staff includes distribution professionals, each of whom is Microsoft Dynamics GP certified.
- A singular focus for success.  
Unlike many solution providers, we focus on a single-solution platform: Microsoft Dynamics GP. This allows us to dedicate time and energy to helping ensure your business success.

# DISTRIBUTION

## Microsoft Dynamics GP

Microsoft Dynamics™ GP is a comprehensive business management solution that provides mid-sized and larger organizations end-to-end industry-specific functionality. Microsoft Dynamics GP also is built to make it easier to do business across locations and countries. With Microsoft Dynamics GP, you can be confident your solution is relevant to the demands of the distribution industry.

## Logistics

Logistics in Microsoft Dynamics GP gives you the flexibility to manage inventory and purchasing according to your needs, with functionality to support forecasting, classifying and tracking inventory and reduce transportation costs.

Logistics Benefits:

- Enhance inventory levels by matching supply with customer demand
- Improve your inventory management with detailed insight into your inventory and item tracking
- Enhance customer and supplier relationships using trade agreements
- Improve order fulfillment and accuracy

## Warehouse Management

Warehouse Management in Microsoft Dynamics™ GP gives you the flexibility and control to help you improve your warehouse processes according to your individual requirements. By improving your insight into your inventory and warehouse management tools, you are better equipped to increase customer satisfaction and reduce your costs.

Warehouse Management Benefits:

- Update your warehouse layout to increase efficiency, accuracy and utilization
- Obtain a real-time overview of inventory to help improve customer service
- Streamline your warehouse processes with directed operation to increase efficiency, lower headcount and reduce costs
- Incorporates radio frequency identification (RFID) technology to identify and tag individual items
